WORK EXPERIENCE

Backend Engineer | Backbase, Hyderabad, Telangana, India
Oct 2021 - Current

➢ **EastWest Bank**
Integrated T24 API's with Backbase services. Used Micrometer for metrics. Created custom keycloak authenticators for 2FA. Updated the existing github workflows for better release management and created a central way to handle workflows across multiple repositories.
Technologies Used: OpenAPI, REST, Java, Spring Boot, Spring Webflux, Keycloak, Azure, Kubernetes, Docker, jUnit, Mockito, TestContainers

➢ **Ubank**
Production support. Integrated with Finacle's API.
Technologies Used: OpenAPI, REST, Java, Spring Boot, AWS, Kubernetes, Docker, Datadog

➢ **Banco de Oro Unibank**
Integrated Backbase services with their core banking APIs. Wrote customer ingestion using spring batch and AWS SDK.
Technologies Used: OpenAPI, REST, Java, Spring Boot, AWS, Kubernetes, Docker, jUnit, Mockito, TestContainers

Associate Software Engineer | Shipconsole, Hyderabad, Telangana, India
Aug 2019 - Oct 2021

➢ **Employee Management Tool**
Developed a tool to keep track of employee's timesheets and leaves.
Technologies Used: Bootstrap 4, Java, Jersey, Oracle SQL.

➢ **Bug Tracker**
Created an application to keep track of bugs of different projects in the organization.
Technologies Used: Bootstrap 4, Java, Struts 2, Oracle SQL.

➢ **LTLConsole**
Built an application to support LTL shipments via API with different Freight Carriers.
Technologies Used: Java, Spring Boot, Spring MVC, Hibernate, Oracle SQL.

➢ **ShipConsole ShipAPI**
It provides organizations greater flexibility to integrate shipping functionality into ERP/WMS/TMS systems. Refactored and maintained the API to reduce the response time by 30% by taking advantage of the latest Java features.
Technologies Used: Java, Spring Boot, Oracle SQL.

➢ **RatesLoader**
Programmed and maintained the application to automate the process of fetching currency exchange rates from external data sources and loading them into Oracle Cloud ERP Applications replacing manual processes.
Technologies Used: Java

SKILLS

PROGRAMMING

- Java EE
- Java SE
- Python
- C
- C++

FRAMEWORKS

- Spring Boot
- Spring Webflux
- Spring Batch
- JPA - Hibernate
- Struts
- Jersey

WEB TECHNOLOGIES

- HTML
- CSS
- Bootstrap 3,4
- Javascript
- jQuery
- REST
- SOAP

DATABASE

- Oracle
- MySQL
- Microsoft SQL Server

TOOLS

- Docker
- Kubernetes
- AWS
- Azure
- Github Actions
- Git

AWARDS

➢ **Backbase • Star Performer • Sept, 2023**
Awarded as the Star Performer for exhibiting leadership, commitment, and dedication to the project.

➢ **Secure Code Warrior • Runner up • March 2023**
Runner up in secure code warrior season 3 tournament conducted by backbase. In the tournament, the players are presented with a series of coding challenges and missions and compete against each other to identify, locate, and fix vulnerabilities.

➢ **ShipConsole • Associate of the Quarter • May, 2020**
Awarded as the best employee of Quarter 2 for demonstrating good Technical capabilities.

➢ **Poori Padhai • Runner Up in DOM Cruisers Challenge • Apr, 2019**
DOM Cruiser is a challenge for developers who know HTML, CSS, and JavaScript.

➢ **Amarpush Educational and Welfare Society • Star Performer • June, 2018**
Awarded as Star Performer twice during the period of internship at Amarpush Educational and Welfare Society.

CERTIFICATIONS

➢ **Certified AppSec Practitioner (CAP)**
The SecOps Group

➢ **Backbase Certified Backend Developer**
Backbase
